

Submission for Adaptive Sailing Equipment modifications

Please fill this out as completely as possible, with as much information and explanation as possible. Submit each modification separately. Provide as many photos or drawings as necessary to illustrate how to build, install and use your sailing modification.

Send completed form and photos/files to us at equipment@adaptivesailingequipment.com

Your Contact Information

Name: _____ Organization: _____

Phone: _____ Email Address: _____

Sailboat Model and Modification Type

Boat (e.g., 2.4mR, Sonar, etc): _____

Steering Adaptation

Seating Adaptation

Other Adaptation

If Other, describe: _____

Benefits, Features — What's Cool About Your Adaptation?

Feel free to brag here about whatever it is that you've created:

Where is This Being Used?

Program, Yacht Club or Individuals using your adaptation, with location and contact info where possible.

Availability:

Open Source, DIY (Do It Yourself) Project

Open Source, Using Commercially Available Components

Proprietary/Commercial Adaptation, Available for Purchase

Components/Parts List:

Please list all components and parts required to construct this modification, along with a source for each (website link if appropriate) and approximate cost. If this is a commercial adaptation, provide source and cost.

Building Instructions and Procedures

Please provide detailed information on how to build this, if applicable. Include photos, diagrams, illustrations — whatever you think will help another sailor or program.

Installation Requirements and Procedures

Drop-in Adaptation, no permanent changes to boat

Permanent change to boat required

If a change must be made to the boat, describe what that entails. Provide all installation details here:

Anything Else You'd Like to Add?

Thanks for your contribution to adaptive sailing!
